All Programs

In addition to the development of social skills, age-appropriate reading and basic math concepts will also be implemented into daily activities. Students will learn letters, numbers, shapes, colors, and sequencing skills. Through these activities, students will learn to develop their fine and gross motor skills. The Creative Curriculum will be used as part of the pre-school program. The Creative Curriculum has been used widely in pre-school programs throughout the United States. It describes and demonstrates how to plan a developmentally appropriate program focusing on ten well-organized interest areas. Its underlying philosophy draws from Jean Piaget's work on cognitive development, Erik Eriksson's stages of

socio-emotional development, and accepted theories of how children learn best. The approach is practical, easy-to-understand, and immediately applicable to a variety of settings.

All children will also receive exposure to art and music activities as well as go to the gym for physical development.

This excellent program is also based upon a framework of six different aspects including; how children develop and learn, the learning environment, what children learn, the teacher's role, the family's role, and research theory.

2 & 3 Year-Old Program

This program is designed for two and three year olds who will be experiencing a pre-school setting for the first time. The curriculum is designed to immerse students within an academic and social environment. Student will be exposed to early pre-literacy and math skills combined with opportunities to interact with their peers and teachers and to participate in whole group activities.

Students will also learn to play cooperatively by developing listening and sharing skills, follow directions, and be taught to respect their classmates as well as their teachers. Students will also experience a wide variety of subjects ranging from reading, math, science, social studies, religion classes, technology classes, P.E. and music classes as well as Spanish lessons. Each classroom has been equipped with top of the line technology equipment such as Smartboards, mini iPads and computers which have early childhood software programs installed for the benefit of each student.

4 Year-Old Program – Universal Pre-K Program (Policy 2525)

This 5-day program is designed for four and five year olds who have had a previous experience of pre-school.
